Continuation of Disposition of Claims: Claims pending in the application are 84-118,120-125,127-129,142-144,172-198,224,225,229,232,233,235 and 236.

Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 84-118,120-125,127-129,142-144,172-198,224,225,229,232,233,235 and 236.

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 84-118, 120-125, 127-129, 172-197, 232-233, 235-236 are drawn to a surgical biopsy and delivery catheter.

Group II, claim(s) 142-144, 198, 224-225 and 229 are drawn to an implantable biopsy cavity marker and method of making the same.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I claims a surgical delivery device with technical features, including plungers, ports and materials, which provide the device the ability to deploy a medical device, perform a surgical biopsy or perform stereotactic surgery. The technical features claimed therein represent the first inventive concept. Group II claims a diagnostic marker and method of making the same. Here, the marker has technical features including specialized biocompatibility and digital identification, which enable it to be safely implanted and monitored.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

Art Unit: 3768

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Response to Arguments

4. Applicant's arguments, filed 04/21/2008, with respect to the 03/21/2008 Requirement for Restriction have been fully considered and are persuasive. Accordingly, the 03/21/2008 Requirement for Restriction has been withdrawn.
